Currently in Annapolis, MD
Owner is willing to take a Plane as trade or partial trade!
Serenity stands out as the most fully equipped and highly customized Jeanneau 64 on the water today. Her owner has spared no expense to transform her into a yacht capable of extensive world travel or perfect for island cruising. The focus of these upgrades has been on enhancing comfort,

practicality, and ease of sailing, turning Serenity into a vessel ideal for weekend getaways or long voyages—perfect for live-aboard cruising or entertaining loved ones.

With luxurious amenities, state-of-the-art technology, and a well-thought-out layout, Serenity offers both comfort and practicality. Notable features include updated cabins, advanced entertainment systems, new North Sails 3Di sails, and efficient cooking and mechanical systems, blending luxury with functionality.

Her layout includes three cabins and three heads, with crew quarters located in the bow. Upon entering the cabin space below, natural light floods the saloon, highlighting the spaciousness. Comfortable settees with plush upholstery surround a large custom table that folds to seat eight or more, perfect for entertaining.

To port, the galley boasts upgraded appliances and a spacious Corian countertop, complemented by a nearby day head. The owner's cabin aft features a Tempur-Pedic mattress, upgraded lighting, a premium Bose sound system, and a 50" smart TV. The ensuite head has been renovated and includes a large glass-enclosed shower.

On the starboard side, the mid-ship stateroom offers two stacked bunks—creating a stable sleeping platform at sea—and houses access to the engine room, as well as the washer and dryer.

A major refit completed by New England Boatworks in 2022 significantly transformed the forward VIP stateroom. The original layout was modified by removing the center partition, resulting in a spacious cabin with two queen-sized berths fitted with new custom mattresses. The forward VIP heads feature a glass-enclosed shower and a separate bathtub, with access to the crew's quarters through a door in the shower. The crew's quarters include two additional bunks, ideal for visitors or grandchildren.

Whether you're crossing the Caribbean, enjoying a weekend at the marina, or living aboard, Serenity is designed to deliver unmatched comfort and performance.
